Dear Lifestyle Homes:

I just want to express my gratitude for the courteous and prompt attention I received from your staff at the main office and from building supervisor, Carl Gould.

He was very efficient, courteous and so helpful. Almost four years old, my home sustained small seepages of water. Carl quickly identified the problem and caulked the cracks through which the rain had seeped. He also took the time to show me how to attend to this in the future.

Great service. Thank you so very much.
Joan Joseph
